- If the scoring of any discipline cannot produce a clear placement, then the following chart will be used.
- Men's scores and women's scores will be calculated separately and then combined.
- Places are a percentage of a base number which is the total of 10 points for each competitor that could theoretically be entered.

APPENDIX

Cable Wakeboard Format and judging

1. Cable Wakeboard and will be conducted in accordance with the current regulations and competition rules stipulated by IWWF Asia in line with the IWWF World Rule Book.
2. Riders will be judged in a FREERIDE format only
3. Riders will be judged on their equal use of both air tricks and features. Depending on the competition site and the quantity of features or possibilities to do air tricks, the weighting may be adapted by the Chief Judge and would be explained at the riders meeting.
4. There will be a minimum of two rounds: a Qualification, and a Final Round. Using the heat system, Last Chance Qualifier (LCQ) and Semifinal rounds may be included depending on the number of riders
5. One round will consist of two runs (passes) through the course, each run consisting of combinations of inverts, grabs, rotational tricks, and features. Riders may perform any tricks they choose in any order they wish. Only the best out of the two runs will be scored.
6. Judging of the routine begins when the rider enters the course and ends when the rider exits the course or falls and loses the handle

JUDGING CRITERIA / SCORING

1. Judging will be SUBJECTIVE only. There will be no predetermined points for any tricks.
2. The scores awarded will reflect each run (pass) with a single combined score from 0- 100 points. Only the best of the two runs will be taken as a result. The lower scored run will be removed.

3. Each rider shall be allowed two runs through the course during which time he may perform any routine he chooses. He will be judged on two subjective categories, to arrive at a single combined score for each run. Points will be given based on technical performance and impression. Riders are encouraged to perform a smooth flowing routine with a wide variety of tricks. Each manoeuvre should be executed as cleanly as possible and taken to its limit.

4. Technical performance

(Level and variety of tricks performed = what did the rider perform)

Judges look for the variety and diversity of tricks in a flowing creative sequence. In the judge's eyes, a better rider is one who throws a balanced variety of inverts, spins, heel side, toe side, switch, blind tricks, and handle passes etc, using both air tricks and features.

5. Impression

(Airtime, mastery, style and control of tricks = how did the rider perform)

How impressive was the routine, how big did the rider go? For Slider and Kicker, how controlled and balanced is the rider? The judges look for the degree of effort in each manoeuvre performed and in the overall run. Does the Rider show his personal style in the trick performed? Is the trick grabbed, boned, tweaked, shifted? Are the tricks landed clean? How good is the body position in the air? How long was the trick grabbed? How good is the approach /cut of the tricks, the flow in the run?

6. Calculation of scores:

Scores from the two categories (Technical performance and Impression) of a rider's routine are added together to produce a judge's total score out of 100. There cannot be a tie between riders of the same heat. All three judges' total scores are then averaged to produce a final score out of 100 for each rider.

7. Repetition of tricks during one run will not be scored but a rider can repeat tricks from the first run in his second run.

8. Any trick performed outside of the course or using the pull of a deflection pulley will NOT be scored.
